

JetBlaster LTD

Where sporty style meets speed.

Ride it your way. The JetBlaster LTD's raised handlebars, compact hull and quick-revving TR-1 HO engine put you in full control whether you're carving hard turns or launching over wake.

Electric trim and Performance Auto Trim respond in real time, helping you hold perfect lines or snap back into place mid-trick. It's responsive, reactive and built to push boundaries.

Complete with eye-catching looks and a JetBlaster Limited Package including audio kit and storage, this machine turns heads and delivers full-send fun from dock to dock.

- TR-1 High Output 1049cc 3-cylinder engine
- Lightweight, playful performance
- Electric trim and performance auto trim
- JetBlaster Limited Accessory Package
- RiDE with T.D.E.
- Raised handlebars and freestyle ergonomics
- Watertight glovebox
- Custom-cut deck mats

Freestyle power, serious attitude.

Unapologetically playful, the JetBlaster LTD brings adrenaline, agility and LTD styling to the water. Designed for freestyle riders, it's compact, lightweight and perfectly powered by Yamaha's 1049cc TR-1 High Output engine.

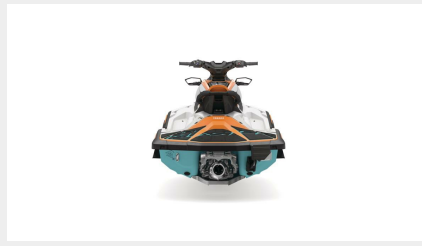

Precision control comes from RiDE® technology, T.D.E and an electric trim system with Performance Auto Trim while a custom-cut deck and watertight glove box deliver on utility and usability.

With bold colourways, aggressive stance and an optional Limited Accessory Package including Footwell Audio, stern-mounted storage and mooring cover, the JetBlaster LTD is fun redefined; ready to blast beyond the ordinary.

TR-1 High Output Engine

Yamaha's lightweight, compact 3-cylinder TR-1 High Output marine engine delivers an explosive power-to-weight ratio, ideal for tricks, carving and quick take-offs.

Electric trim and auto trim

Adjust trim manually or let Performance Auto Trim take over. Automatically corrects pitch during acceleration and tight turns for extra control while freestyling.

Freestyle ergonomics

Raised handlebars, single-piece seat and grippy custom deck mats give riders the control, leverage and agility needed to throw tricks and handle hard transitions.

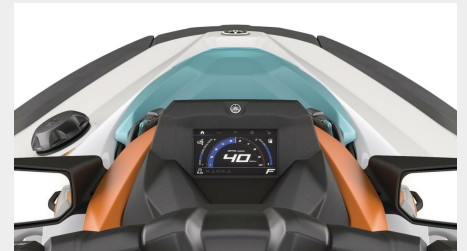

RiDE® with T.D.E.

Exclusive to Yamaha, RiDE® gives you reverse, acceleration and deceleration in one intuitive system, while T.D.E allows for ultra-slow movement and easier launching or docking.

Minimalist utility

A watertight glovebox and water-resistant under-seat storage offer compact convenience. Add in a tow hook and maintenance-free battery for all-day functionality.

4.3-inch Connex display

The compact Connex screen keeps your ride dialled in with fuel, trim and mode information in a clear, secure display built for freestyle.

Engine

Engine type	3-cylinder, 4-stroke TR-1 High Output Yamaha Marine Engine
