

Just one more lap

Some watercraft demand a plan. This one just demands another lap. Small, light and brilliantly agile, the WaveBlaster is built for riders who think the shortest route between two points should involve at least a few unnecessary turns.

A responsive 3-cylinder, 4-stroke TR-1 High Output engine, tight-handling and in-mould foot chocks keep you locked into the ride, while a handy glovebox takes care of the essentials.

All thrills. No fuss. Ride seated, stand up when the mood strikes and hop back on with ease when you take a dip into the wet stuff. Because every stretch of water is more fun when you treat it like your personal playground.

- 3-cylinder, 4-stroke TR-1 High Output Yamaha Marine Engine
- Single rider design for seated or standing use
- Compact and agile
- 90s-inspired styling
- In-mould foot chocks with custom deck mats
- Handy glovebox
- Easy reboarding design

Pure playtime

One rider. Unlimited fun. Small enough to tag along almost anywhere, agile enough to make every ride memorable. With a responsive 3-cylinder, 4-stroke TR-1 High Output engine, tight-turning handling and old-school attitude, the WaveBlaster brings a new meaning to playtime on the water. The kind that starts with one lap and somehow turns into twenty.

Easy to launch at a moment's notice, it proves the best toys don't always take up the most space. A glovebox for the essentials keep things simple, leaving you free to focus on the important stuff. Which is convenient, because self-control won't be one of them.

Inspired by the old-school thrills that inspired a generation, this is proof that some things never go out of style. Don't let its size fool you. This machine has absolutely no interest in behaving like a sensible runabout.

Compact, agile and lightweight

One of the smallest and lightest PWC in decades, it's quick to launch, easy to tow and always ready for excitement. Compact enough to fit aboard a yacht. Entertaining enough to become everyone's favourite thing on it.

Single rider design for seated or standing use

Ride seated. Stand up and take control. Switch things up whenever the mood strikes. There's no right way to enjoy yourself, which is fortunate because this model encourages all of them.

In-mould foot chocks with custom deck mats

The more playful the ride gets, the more you'll appreciate the added grip and control of the in-mould foot chocks and custom deck mats. Consider them a very good influence on your bad influences.

90s-inspired styling

One of the smallest and lightest PWC in decades, it's quick to launch, easy to tow and always ready for excitement. Compact enough to fit aboard a yacht. Entertaining enough to become everyone's favourite thing on it.

Handy glovebox compartment

Phone. Wallet. Keep your essentials close at hand. Bring what you need. Leave room for spontaneity.

3-cylinder, 4-stroke TR-1 High Output Engine

Don't let its size fool you. The ultra-responsive High Output engine delivers exhilarating performance that's playful when you want it and thrilling when you don't know when to stop.
