

FX Cruiser HO

Detours encouraged

Some machines make getting there the priority. The FX Cruiser HO makes a compelling case for taking your time. With a powerful 1.9L High Output engine, cruiser-style comfort for up to three riders and the freedom to cover serious distance with ease, it's always ready to see what's beyond the next headland.

The cruiser-style seat was never going to encourage restraint. The longer the ride gets, the more comfortable everyone becomes and the easier it is to justify carrying on. Cruise Assist and No Wake mode help make every mile feel effortless, leaving more time for simply enjoying every wave.

Throw in your favourite playlist on the Yamaha integrated audio system and a stretch of open water, and suddenly the possibilities start multiplying. One more mile becomes ten. One quick look becomes a proper detour. The plan never really stood a chance.

- 4-cylinder, 4-stroke, 1.9L High Output Yamaha Marine Engine
- Cruiser-style, 2-piece, 3-person tiered seat
- Revolutionary RiDE® system for intuitive control
- Infotainment 7" Connext touchscreen with GPS-ready capability
- Yamaha integrated audio system
- Large storage capacity
- NanoXcel2® deck with footwell drains

The scenic route specialist

A powerful 1.9L High Output engine, cruiser comfort and intelligent technology come together in the FX Cruiser HO, a machine that's always up for staying out that little bit later. With seating for three and the capability to keep exploring long after the original plan has run out of ideas, it's made for riders who don't mind a detour or three.

There's a certain satisfaction in spotting something interesting on the horizon and deciding to investigate immediately. Whether it's a bustling marina, a waterfront lunch stop, a hidden cove or that stretch of coastline everybody keeps talking about, some opportunities are simply too good to pass by. Necessary? Probably not. Worth it? Always.

The best days on the water rarely unfold exactly as planned. Fortunately, the FX Cruiser HO was built with flexibility in mind. Load up the essentials, follow your curiosity and don't be surprised if the destination changes along the way. After all, nobody ever tells stories about the quickest way home.

FX Cruiser HO

Luxury 2-piece, 3-person cruiser-style seat

The scenic route has a habit of becoming the long route. Fortunately, the luxurious cruiser-style seat is more than up for it. Spacious, supportive and built for three, it's remarkably good at convincing everyone that one more stop sounds like an excellent idea.

Integrated Yamaha audio system

The scenery is doing its best, so your playlist should too. Clever automatic adjustment keeps the volume, treble and bass perfectly tuned as your speed changes, so whether you're cruising the coastline or chasing the horizon, the soundtrack never misses a beat.

Cruise Assist and No Wake mode

Some stretches of water are made for slowing down and soaking it all in. Others make a very convincing case for carrying on. Cruise Assist and No Wake Mode help make both feel effortless, so you're free to enjoy the journey however it unfolds.

Security mode

No keys. No hassle. Simply enter your PIN code and you're ready to go. Which is useful, because waiting around is a terrible way to start an adventure.

4-cylinder, 4-stroke, 1.9L High Output Yamaha Marine Engine

The quickest route isn't always the most interesting. Fortunately, the 1.9L High Output engine is more than happy with either. Responsive, smooth and eager for adventure, it brings plenty of excitement to every detour.

Large storage capacity

Bow storage. Stern storage. Glovebox storage. Enough room for everything you need, everything you might need and at least three unnecessary purchases that seemed like a good idea at the time.
