FX Cruiser SVHO

Built for full-day detours

Some rides start with a destination. The best ones start with a full tank and a vague idea of where to point the bow. Before long, the coastline starts making suggestions of its own. A quick trip up the coast becomes several swim stops, a long, lazy lunch and a debate about whether it's worth seeing what's around the next headland. It usually is.

That's where the FX Cruiser SVHO comes into its own. The cruiser-style seat keeps everyone comfortable, Cruise Assist helps make longer journeys feel effortless and there's enough storage for the things you planned to bring and the things you somehow ended up bringing anyway. Packing light remains an option. Technically.

By the time the coastline starts turning gold, you'll be very glad nobody suggested staying ashore. You've covered more water, found more excuses to keep going and somehow lost track of where the day was supposed to end. Lost? Unlikely. Exploring? Definitely.

- Infotainment 7" Connext touchscreen with GPS-enhanced Drive Control and security mode
- Unique four-step tilt-adjustable steering system
- Large storage capacity
- Multi-mount accessory system
- Ergonomic steering

FX Cruiser SVHO

All the power, none of the rush

Sometimes you just need a full tank and a free day. Supercharged performance, cruiser comfort and intelligent technology come together in the FX Cruiser SVHO, built for long days on the water. With seating for three, generous storage and all-day capability, it’s made for riders who prefer possibilities to itineraries.

Load up the essentials. Then add a few things that definitely aren’t essential. With storage throughout, integrated Yamaha audio and GPS-ready technology, it’s always ready for another bay, another stop and another reason to stay out longer.

Cruise Assist and No Wake Mode help take the effort out of longer journeys, while the supercharged Super Vortex High Output engine is always ready when a little extra excitement feels appropriate. Some rides are too good to cut short. This is one of them.

FX Cruiser SVHO

Supercharged 4-cylinder, 4-stroke Super Vortex High Output Engine

Not every ride needs to be supercharged. That's the beauty of having it. Effortless when you're cruising, exhilarating when the water opens up, the FX Cruiser SVHO gives you all the power you could want and absolutely no obligation to use it all at once. But we're sure you will.

Cruiser-style 3-rider seat

Built for people who believe good days shouldn't come with a time limit. The cruiser-style seat keeps everyone comfortable mile after mile, turning "one last stop" into "why don't we keep going?".

Cruise Assist and No Wake mode

Some stretches of water call for speed. Others call for taking it easy. Cruise Assist and No Wake Mode handle the finer details so you can focus on more important decisions. Like whether it's worth checking out the next bay.

Multi-mount accessory system

No two adventures look exactly alike. The multi-mount system makes it easy to tailor the craft to suit whatever you've got planned. Or whatever the day ends up becoming instead.

Deep reboarding step with dual grab handles

Eventually somebody's going swimming. Planned or otherwise. The wide reboarding step and dual grab handles make getting back aboard quick, easy and considerably more graceful than it might otherwise be.

Ergonomic steering and rope hooks

Grips and controls are designed for comfort and ease of use, with integrated rope hooks that make tying up at the dock quicker and simpler. Small detail. Big fan.

FX Cruiser SVHO
