

VX DeLuxe

Worth making time for

Life’s busy. The water hasn’t noticed. It’s still sitting there, looking just as tempting as it did yesterday. Fortunately, the VX DeLuxe is always ready to roar when a free afternoon suddenly appears.

The inbox will still be there tomorrow. The chores aren’t going anywhere. Fortunately, neither is the water. Equipped with everything you need and nothing you don’t, this model proves that every now and then, leaving responsibility behind for an hour or two is the responsible thing to do.

The 4.3" Bluetooth-ready display, secure PIN-code access and practical storage are the sort of features that quickly become part of the routine. Smart, intuitive and always useful, they help remove the little hassles that can get in the way of a good day on the water. The water’s been waiting all week. What took you so long?

- Multi-mount accessory system
- 4.3" Connext Bluetooth-ready screen
- Watertight glove box with USB Type C and 12V Outlet with accent lighting
- 3-cylinder, 4-stroke TR-1 High Output Yamaha Marine Engine
- Revolutionary RiDE® system with Reverse Assist
- Adjustable top speed limiter and acceleration settings
- Excellent ergonomics with comfortable seating and deep footwells
- Easy re-boarding with extended re-mount platform with Hydro-Turf mat
- Upgraded tow hook and large integral mirrors

Straight to the best part

Just add water. That’s about the only thing the VX DeLuxe doesn’t bring with it. Built for riders who’d rather be on the water than planning for it, it combines everyday practicality with plenty of punch when the mood strikes. The result is a PWC that feels ready the moment you are.

One destination, three destinations or none at all. A stretch of open water that looks too good to ignore. A hidden corner worth investigating. An hour to spare that somehow turns into an afternoon well spent. The sort of moments that remind you why owning a WaveRunner is always a good idea.

From RiDE® and Reverse Assist to the 4.3" Bluetooth display, it’s packed with the kind of features that quickly become non-negotiable. Smart, intuitive and genuinely useful, they help every outing run a little smoother, leaving more time for the things that got you out on the water in the first place.

VX DeLuxe

Multi-mount accessory system

The best plans aren't always made before leaving the dock. The versatile multi-mount system makes it easy to customise your setup with compatible accessories, so whatever the day becomes, you're ready to make the most of it.

Excellent storage options

A watertight glovebox, moulded bow cooler and water-resistant under-seat storage help keep the essentials exactly where they belong. The drinks stay cold, your gear stays protected and that "we might need this" item finally has somewhere to live.

Adjustable top speed and acceleration settings

Shape the ride to suit the mood using the adjustable top speed and acceleration settings. Take things easy or make the most of a particularly tempting stretch of open water, the choice is yours.

RiDE® system (Reverse with Intuitive Deceleration Electronics)

Tight manoeuvres. Busy marinas. Awkward docking situations. We've all seen them. RiDE® and Reverse Assist help keep everything feeling smooth, intuitive and under control, making it easier to look like you knew exactly what you were doing all along.

3-cylinder, 4-stroke TR-1 High Output Engine

Free time is precious. The 1049cc High Output engine has no intention of wasting it. Quick to respond and eager to get moving, it gets straight to the point. Because when you've finally escaped the inbox, every minute counts.

Footwells and deck mats

Comfortable deck mats help keep you planted when things get lively, while integrated footwell drains help water find its way out after the excitement dies down. A little practicality never hurt anybody.
