VX Limited HO

Let’s make a day of it

Who says you have to pick just one kind of fun? From watersports and exploring to laid-back cruising, the VX Limited HO keeps its options open. Which is fortunate, because the best days on the water rarely stick to a single plan.

One minute you’re towing the tube. The next you’re opening the throttle on a stretch of inviting water that looked too good to ignore. Later, you’re cruising home with the music on and absolutely no regrets. A powerful 1.9L High Output engine, the intuitive RiDE® system and clever technology make it remarkably easy to enjoy every version of the day.

The generous under-hatch storage leaves room for towels, gear and all the other things that somehow become essential, while the moulded bow cooler will become your best friend on long journeys. Which is handy, because somebody still needs to organise the snacks.

- Additional VX Limited HO accessory package
- Integrated Yamaha audio system
- 4-cylinder, 4-stroke, 1.9L High Output Yamaha Marine Engine
- RiDE and Reverse Assist Mode
- 4.3" Connext screen

- Pull-up cleats and tow-ready design
- Multi-mount accessory system
- Cruiser 2-piece, 3-rider seat
- Watertight glovebox with USB / 12V and water-resistant under-seat storage

VX Limited HO

Good times, fully loaded

There’s always one person who thinks to bring the speaker, the snacks and the thing everyone ends up using. This is their machine. Packed with practical features, smart technology and plenty of adventure-ready thinking, the VX Limited HO is built for riders who believe every great day on the water deserves the full treatment.

This isn’t the kind of machine that believes in travelling light. The luxurious cruiser-style seat brings the comfort, integrated Yamaha audio brings the atmosphere and the powerful 4-cylinder, 4-stroke 1.9L High Output engine brings the enthusiasm. The result is a watercraft that treats every outing like it might become the highlight of the week.

And if the plans grow more ambitious from there, it’s ready for that too. The RiDE® system, Reverse Assist and a host of practical touches work quietly in the background, while accessories, storage and clever technology help keep the good times rolling. Some machines wait to see what the day has in store. This one arrives prepared.

VX Limited HO

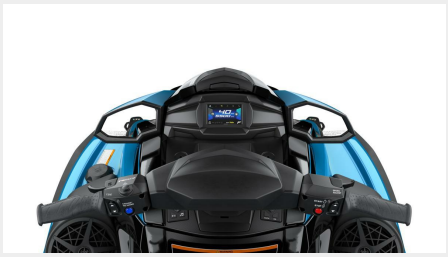

Limited accessory package

A tube, cooler, custom mooring cover and a collection of practical extras designed to help you get even more from every day on the water. Because the difference between a good day and a great one is often the stuff you remembered to bring. Sold separately.

Integrated Yamaha audio system

Every great day has a soundtrack. This one knows how to keep up with it. The integrated Yamaha audio system automatically adjusts volume, treble and bass as your speed changes, ensuring every song sounds exactly as it should. Whether everybody agrees with the playlist is another matter entirely.

Cruise Assist and No Wake mode

Some moments call for excitement. Others are best enjoyed at a slower pace. Cruise Assist and No Wake mode help you settle into both, whether you're gliding through the marina, taking in the scenery or simply making the most of being out there.

4-cylinder, 4-stroke, 1.9L High Output engine

Some machines get you there. The 4-cylinder, 4-stroke, 1.9L High Output engine makes a compelling case for staying a little longer once you have. Smooth, responsive and packed with enthusiasm, it brings the kind of energy that makes every day on the water feel like it has potential.

Pull-up cleats and tow-ready to design

Pull-up cleats, dual rope hooks and an integrated tow hook mean you're always ready when somebody says, "I've got an idea". Tie up, tow out or change plans completely.

4.3" display with Bluetooth and PIN security

Bluetooth connectivity, key ride information and PIN-code security all come together in one intuitive display. No keys. No hassle. Just one less thing standing between you and the water.
